

Klove radio is a vital part of my life. When I was in college an hour away from home, Klove was the only radio station, really the only thing that was familiar to me. It gave me comfort when my brother went to heaven and it lifts me up when I am having a bad day. It is so important in this world that we live in to have a positive voice on the radio and Klove is that positive voice. I never have to worry about hearing foul or inappropriate language or lyrics, which makes Klove safe for people of any age. Klove can be heard where I live in Greensboro, NC all the way to Raleigh, NC where I went to college, this great span of positive broadcasting effects so many people's lives and because of this I sincerely petition for the FCC not to replace Klove with an LPFM station that may include offensive DJ's and/or music. If we want America to dig itself out of the rut that it's in, we must provide positive and encouraging radio for our children and our children's children. Keeping Klove is one way that we can do this.
